

## AC Circuit Breaker Finder/Receptacle Tester

Locates circuit breakers and tests receptacle wiring

### Features:

- Quickly locate 110V to 125VAC Circuit Breakers and Fuses
- Variable Sensitivity adjustment to pinpoint correct circuit breaker
- Bright Red and Green LED's indicates if receptacle is correctly wired or six fault conditions
- Push button GFCI test
- Audible and visual circuit breaker indication
- Convenient storage position for transmitter/receptacle tester
- Eliminates circuit interruptions
- Use on 110V to 125V AC circuits
- UL listed
- Dimensions: 8.5x1.5x2.25" (216x38x57mm)  
Weight: 5.9oz (167g)
- Complete with 9V battery for the Receiver

### Applications:

- Locate branch circuit breakers without flipping breakers to other circuits
- Confirm proper wiring during electrical wiring installation or repair
- Test receptacle ground fault operation

Identify 90 to 120VAC Breakers and fuses powering outlets
